Natural timber effect Solutions working in harmony with Profile Matt Porcelain

Solutions

Finished Kitchen Surfaces & Panels

A range of worktops and accessory panels in three realistic woodgrains & one concrete effect. Offering you a natural contrast to modern door finishes, whether your kitchen choice is matt, gloss, cream, mussel, white or any of the shades of grey, you can include Solutions. Create open shelves and bespoke units that are seen in the most contemporary rooms to produce that finishing touch. See page 30 for more ideas.

Shelving

Use Solutions panels to create practical but fashionable shelving to complement your kitchen. Shelving can be the answer to an unusual sized space or a challenging ceiling pitch

Worktops

Matching the other panels in the Solutions collection, the worktops and breakfast bars have a realistic grain and texture, providing that solid timber or concrete effect without the worry of upkeep

Splashbacks & upstands

An effective and modern alternative to tiles. Simple to install and you'll enjoy the benefit of Solutions for years to come

LED Lighting solutions

One of the first things you'll need to consider when planning your new kitchen is the lighting, as wiring needs to be installed at the start of the project, before plastering, decorating and the fitting itself. It's an integral part of any scheme and this is your perfect opportunity to create the right ambience. Most lights are dimmable and available in either cool or warm white to suit the kitchen style and tone. Your designer will guide you on the extensive range available.

Primo - Flexible Strip Light

Has connection points every 100mm, and can be cut at each of these points. Useful for plinths, inside cabinets or under worktops

VERSO - LED Drawer Light

The ideal solution to illuminate pan drawers. (600/900mm)

SLS Quadra - LED Under Cabinet Light

Boasting an ultra modern design this fitting is great for task lighting in the more contemporary kitchen

Alti - LED Under Cabinet Light

The latest prismatic LED technology, the LEDs are diffused by a frosted cover, making for a more aesthetically pleasing appearance

- Aluminium finish
- Cool white & warm white LED available

maia®
innovation in worksurface technology

minerva® solid acrylic worksurfaces...

Welcome to **minerva**® a new, practical and solid kitchen worksurface manufactured using state-of-the-art technology. Delivering a luxurious appearance, cool pleasing touch and robust performance from its solid 25mm thick material, **minerva**® has the advantage of being the same colour throughout. This means that sweeping curves and two tone worktops can be easily created plus Belfast sink fitting is not an issue due to benefits of the product being 100% waterproof.

Imperceptible, seamless, solid joints

Thanks to the solid acrylic core there are no concerns with water ingress. **minerva**® is designed to deliver the best possible aesthetic results. With our renowned jointing strength **minerva**® is rock solid! Nor are any special preparation procedures necessary to achieve beautifully imperceptible, seamless joints.

Factory finished edges ready for fitting

All **minerva**® worksurfaces are supplied ready for installation with smooth factory finishing on exposed edges.

Breakfast bars, splashbacks and upstands, are just some of the added attractions of choosing **minerva**®.

Optional adjustable seam setting device with suction clamps for easier jointing.

Prefabricated sink solutions Undermounted sink modules with factory applied drainer grooves save time when it comes to preparation and installation.

minerva® colour palette...

There are 15 superb colours to choose from with a number of light options to suit darker kitchen door finishes.

*Each of these worksurfaces are unique, reflecting the natural appeal of marble and stone.

Whilst **minerva**® sink modules are made from a solid piece of material, the recessed sections may have a slightly different pattern on some décors due to the spread of the coloured chips.

Routine cleaning

minerva® does not require any specialist cleaning, simply wipe off with a damp cloth and soapy water. The worksurface should then be rinsed with clean water and wiped dry. Persistent marks can be removed by using a mild abrasive cleaner, but harsh scouring powders should be avoided. Unlike marble and granite, **minerva**® is non porous, hygienic and will resist most household chemicals including alcohol.

Heat

minerva® will withstand heat better than many alternative surface materials with boiling water and cooking splashes not being an issue. As with **maia**® however, all hot pot, pans and other heat generating devices should always be placed on a trivet or worktop protector rods.

minerva® is supported by the FIRA Gold Award for product excellence and covered by a 10 year manufacturer's product guarantee.

Minor scratching

As with **maia**®, kitchen utensils and unglazed crockery can sometimes cause scratches that will be more evident on darker colours. Use of a cutting board is essential though minor scratches can easily be removed using the abrasive pad and other items from the care kit.

Laminate worktops

Whatever your chosen kitchen style we have a worktop perfect for you in our smart range of laminate surfaces. LochAnna Solutions, three realistic 38mm woodgrains or new concrete in 28mm will give you a chance to coordinate your worktops, splashbacks and open shelving to complement your kitchen design. Artis worktops, splashbacks and upstands are available in over 50 stunning shades – this means you won't ever be stuck for choice. Your kitchen studio will have samples to help make your decision.

Solutions

Finished Kitchen Surfaces & Panels

A range of worktops and accessory panels in three realistic woodgrains & one concrete effect. Offering you a natural contrast to modern door finishes, whether your kitchen choice is matt, gloss, cream, mussel, white or any of the shades of grey, you can include Solutions. Create open shelves and bespoke units that are seen in the most contemporary rooms to produce that finishing touch.

Shelving

Use Solutions panels to create practical but fashionable shelving to complement your kitchen or living area. Shelving can be the answer to an unusual sized space or a challenging ceiling pitch

Splashbacks & upstands

An effective and modern alternative to tiles. Simple to install and you'll enjoy the benefit of Solutions for years to come

Worktops

Matching the other panels in the Solutions Collection the worktops and breakfast bars have a realistic grain, providing that solid timber effect without the worry of upkeep. Look out for the vertical end grain, this definitely creates an authentic timber look

Open Shelving

A stunning open display adds a richness to a modern Dove Grey kitchen

Appliances

Don't forget that we can satisfy all your appliance needs with a choice of Matrix, CDA or Belling brands. CDA are synonymous with design and cutting edge technology, offering a 5 year parts and 2 year labour guarantee. Belling have been bringing clever ideas and quality appliances for over a century and this British brand remains one of the most trusted and well known manufacturers.

Cooking

All your needs are more than covered, from ovens in single, double and range cooking plus a series of hob options in electric and gas, and not forgetting the extractor which is offered in many great styles

Cooling

Refrigeration is offered in fully integrated models in all the built in sizes to suit our kitchens. High efficiency energy class is also a feature to keep the energy bills to a minimum. Wine coolers in several sizes are also available to create a smart focal point

Dishwashing

Once seen as a luxury but now a fundamental part of any kitchen. There are a number of size options and specifications available, with slim-line or full width models and all A rated for energy consumption

Laundry

Washing and drying with a multitude of programmes is important in today's busy kitchen with fully concealed laundry products available from both brands

corner information

800mm Conventional Corner Base Unit

If using alternative door sizes the gap to the wall changes and centre post of cabinet would require refixing.

- 300mm door = 150mm gap (950mm total)
- 400mm door = 250mm gap (1050mm total)
- 450mm door = 300mm gap (1100mm total)

900mm Conventional Corner Base Unit

If using alternative door sizes the gap to the wall changes and centre post of cabinet would require refixing.

- 450mm door = 200mm gap (1100mm total)

1000mm Conventional Corner Base Unit

If using alternative door sizes the gap to the wall changes and centre post of cabinet would require refixing.

- 500mm door = 150mm gap (1150mm total)
- 600mm door = 250mm gap (1250mm total)

650mm Diagonal Wall Unit

Cabinet Dimensions 632mm. (Requires colour matched infill panels)

1016mm Diagonal Corner Larder Unit

Diagonal corner larder - may require plant on panels

600/900mm Conventional Corner Wall Unit

'L' Shape Corner Units Note:- Walls must be square to accommodate L shaped units.

1000 Blind Corner Larder to Base Unit

1000 Blind Corner Larder to Larder

When installing a 1000 blind corner larder adjoining (90 degrees to) a base unit please order a tall plant on panel to blank off/ fill the space between the opening door and wall. You will also need to order or fabricate a base corner post for under the worktop.

When installing a 1000 blind corner larder adjoining (90 degrees to) another tall/ larder unit a plinth will be included to make a suitable corner post.

Cornice & Light Pelmet

To calculate correct amounts of Cornice and Light Pelmet measure the distance along the front of all the wall units, plus the returns where necessary.

Also, when ordering Cornice and Light Pelmet add 100mm per cut where a joint is necessary. Note: 2 cuts make 1 mitre (see example)

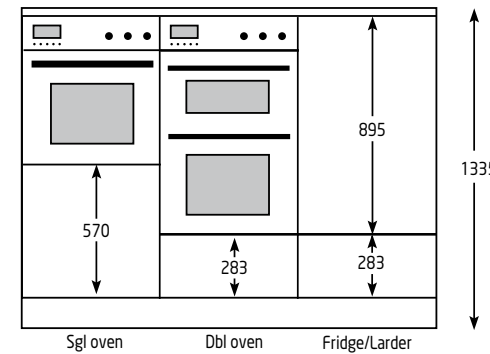

$$330 + 1000 + 330 = 1660\text{mm}$$

$$+4 \text{ cuts (2 mitres)} = \frac{400\text{mm}}{\text{mitre}} = 2060\text{mm}$$

Standard appliance housing / Larder / Fridge Freezer (FF) configurations

Midi appliance housings

For oven / microwave units you will need to install a filler panel, cut to suit from a 116mm oven fascia

Tall appliance housings / Larder / Fridge Freezer (FF) configurations

Curved end posts

(A) Allow an extra 65-100mm (dependent on range) for planting on curved end post. Fix end panel using 18mm packers first, then align to edge of door. Ensure 18mm packer closest to front of cabinet is from door matching material for base/tall posts. This will ensure co-ordinated finish at plinth level.

(B) For the 50mm post in the Natural Collection, fit flush to door and insert a colour matched panel in the rebate (R), packing at back of the unit with a 31mm spacer.

65mm radius - Sculptured, Euro & Opaco Collection

85mm radius - Grained Collection

50mm radius - Washington Clarkwell Georgian

Profile/Mala 100mm curved corner post.

In the interests of continuing design development and product improvement we reserve the right to change colours, designs and specifications or method of manufacture. Such changes may be made without prior notice and without incurring any obligation. All units are manufactured to within normal tolerances. Natural wood is used in some of the kitchens. As wood is a natural living material with an endless variety of grains and textures, some natural colour and grain variation evident on installation will diminish dramatically over a few months as the wood is exposed to light. The expression "solid wood" refers to door and drawer fronts only. Indications of colourways throughout this brochure are as accurate as the printing process will allow. E&OE, January 2018.
